UPS Residential Shipping Solutions

A suite of cost-effective ground services with superior speed and reliable delivery for lighter weight, residential shipments

- Proven strength of our Ground network for faster transit times and better reliability
 - Packages remain in the UPS network from pickup to the consumer's local Post Office
- Alliance with the USPS for final delivery
 - Leverage the efficiencies of the USPS delivery network
 - Final mile to customer mailbox when appropriate
- Shipment preparation with familiar UPS WorldShip® system and convenient daily pickups
- Tracking and billing using the same tools you use for all other UPS shipments

New Shipping Option – UPS Mail Innovations (1–15.99 ounces)

Muffs & Cuffs has developed a new program with the help of UPS Mail Innovations to enhance visibility and service while reducing overall transportation costs

- This new shipping option is designed to offer you an economical alternative to the USPS First Class and Priority Mail for your lightweight shipments that weigh between 1 ounce and 15.99 ounces.
- (note: currently USPS packages that weigh between 13 oz and 15.99 oz are billed at the USPS Priority Mail 1 LB. rate. Because UPS Mail Innovations' rates go up to 15.99oz you will save over a dollar on shipping cost on these types of shipments)
 - UPS Mail Innovations will be a 2 -7 business day service offering for any U.S. destination including P.O. Box deliveries. This service will feature enhanced tracking with increased visibility of your shipments due to the additional scans while in the UPS Mail Innovations network. Tracking is available on www.upsmailinnovations.com
 - Through this unique work share program between the USPS and UPS Mail Innovations, UPS Mail Innovations will pick up, sort and expedite your shipments throughout the U.S. and turn the shipments over to the USPS for the final mile delivery to your customer.

Service Level	Flat Rate Shipping Cost

UPS outperforms the competition

- **No “staging”:** UPS doesn’t stage your packages for consolidation. Instead, your packages move quickly into the UPS network
- **Daily pickup:** We’ll pick up your lightweight shipments at the same time as your other daily volume
- **Shipping and tracking:** Prepare lightweight shipments with UPS WorldShip® at the same time you prepare other UPS shipments and track with any UPS tracking tool
- **Deeper mail induction:** Keeps your packages in our hands longer, and ensures better tracking information
- **Time-in-transit:** The majority of customers who have switched to UPS have stated that UPS is faster, more reliable and more consistent
- **Delivery:** More shipments delivered by UPS vs. competitors who outsource 100% of deliveries to the USPS
